## Heavyweight Premeable Paving

---

### ABOUT

SurePave permeable paving panels are the ideal solution for reinforcing grass or gravel in highly stressed areas, vehicle parking, driveways, golf courses, parks or hard stand areas for boats, trailers or caravans.

The robust cellular design of SurePave offers a perfect paving alternative to concrete while still maintaining all the benefits of a hard pavement.

Porous and free draining SurePave allows water to be absorbed easily creating a safe and functional surface that is natural and attractive.

SurePave paving panels include a unique positive interlocking system to hold panels in place, a small panel size for ease in transportation and installation, and the panels are also light and stackable for efficient storage.

Wanting a paving solution that encompasses style and functionality, that can withstand heavy duty usage? Look no further than the SurePave Paving System.

## Stone Stabilisation System

---

### ABOUT

SmartPave is a residential grade of permeable paving to stabilise gravel or decorative stones. Perfect for lighter traffic areas, entrance way's, patios, paths, courtyards, or any prominent area's around your home.

The advanced honeycomb cell design with geotextile base ensures panels stay buried, preventing stones moving while creating a flat, firm pavement ideal for pedestrians, cyclists and lighter vehicles.

Keeps pebbles underfoot and under control

Available in black or white

100% recycled, 100% recyclable

Easy to use positive interlocking panels

### WITH & WITHOUT PEBBLELOCK

This simple and versatile system allows you to enjoy the beauty of natural stone without spending the rest of your life sweeping or raking stones back into place. Ponding is eliminated as water soaks away through the mesh structure of the PebbleLock Paver back into the ground.

## Path & Patio

---

### ABOUT

PebbleLock is a recycled plastic mat for stabilising pebbles in all landscape areas. Designed for any situation around the home where you want a cheaper, natural alternative to concrete, asphalt or pavers.

Use under pebbles, stones and granite chip on garden paths, patio areas, carparks & driveways to prevent puddles, pot holes, aggregate migration and heavy rain scour.

PebbleLock is suitable for pedestrians, bikes and cars.
