AquaSleeve

Temporary Downpipe

ABOUT

AquaSleeve is a heavy duty UV stabilised plastic tubing which can be clamped or taped to an outer pipe for the following applications:

- **Temporary Downpipes** – For building sites where it is beneficial to redirect stormwater during construction to avoid excess surface water and muddy, efficiency-reducing conditions.
- **Temporary Flexible Flumes** – Prevents erosion by controlling water from outlet pipes down embankments and across and to a suitable release point – AquaSleeve will fit up to a 130mm O/D outlet pipe.
- **Waterproof sleeve between PVC pipe and concrete** – allows for expansion and contraction between PVC and concrete
