The objective of this policy is to assist Cirtex in dealing with and resolving complaints in an efficient, effective and professional manner.

## 1.2 Background

In creating this policy, Cirtex has sought to ensure that our procedures accord with relevant legal requirements and best practice. In particular, this policy has been created to satisfy the requirements of AS ISO 10002 Customer Satisfaction – Guidelines for complaints handling in organisations.

## 1.3 What is a Complaint?

AS ISO 10002 defines a complaint as follows:

*"An expression of dissatisfaction made to an organisation, related to its products, or the complaints-handling process itself, where a response or resolution is explicitly or implicitly expected."*

Cirtex adopts that definition of "complaint" for the purposes of this policy.

Any person or entity who is dissatisfied with a product or service provided by Cirtex for any reason, may contact us to complain. A complaint may be made in writing or verbally. Certain types of "complaints" may be by way of negative feedback, which may not require a resolution or any response. Whilst we acknowledge this type of feedback can be useful and valuable, this policy does not apply to such feedback as such feedback does not fall under the definition of a complaint as set out above.
