Issue No.: 01

September 2022

GardenStax

Installation Guidelines

Ensure that you have all the necessary pieces required to begin. Also, have a hammer on hand ready to use for installation.

To begin creating your GardenStax, simply connect two sides together by aligning their joining brackets.

Make sure that the two sides are properly aligned, then hammer one of the pins provided into the hole connecting the joining brackets to secure the sides.

Connect the other sides together by repeating steps 2 and 3 until you have connected all four sides of your GardenStax together.

Prior to filling, line your GardenStax with a weedmat. We recommend using one of our Strol weedmats for best results!

Your GardenStax is now ready for you to fill and plant as you wish. You can also stack layers on top of each other by securing the lugs onto the layer below, which will allow you to stack your GardenStax to the height you want!
